

VISITOR MANAGEMENT SYSTEM

SuperFast & SuperEasy Visitor Management System for Residential Properties & Corporate Complexes.

QR-based visitor entry for societies, RWAs, and offices. Visitors register on their own phone, hosts approve in seconds, and security validates a digital pass at the gate.

Rs. 12,000 per year

18% GST applicable · Per premise · All features included

How it works

From host setup to gate entry in six clear steps.

STEP 01

Hosts get access

Every host receives an access code and enters it in the GuestRAR app to start using the system.

STEP 02

QR at the gate

A QR code is placed at the premise gate so visitors can begin entry from their own device.

STEP 03

Visitor scans & selects host

The visitor scans the QR, then selects the host name or flat number they want to visit.

STEP 04

Host approves

That host gets a phone notification or call and can Accept or Reject the visitor request.

STEP 05

Security validates

Security checks the approval status before allowing movement into the premise.

STEP 06

Visitor enters

Once approved and verified, the visitor accesses the premise with a clear digital trail.

Brochure overview

A complete VMS stack for everyday premise operations — not just a digital gate register.

Features included

Everything below is part of the yearly GuestRAR VMS plan.

01 Entry and exit tracking

Know who came in, who left, and when — with a clear digital trail for security and management.

02 Pre-approvals

Hosts can approve expected guests in advance so entry at the gate is faster and smoother.

03 Complaint management

Residents raise issues in-app; committees track status and closure without WhatsApp chaos.

04 Society announcements

Push official notices to all hosts in one place — meetings, maintenance, and community updates.

05 Payment portal

Collect society dues and related payments digitally with clearer records for residents and admins.

06 Vehicle management & MyQR

Register resident vehicles and validate them at the gate using MyQR for quicker, safer checks.

07 Buy & sell portal

A trusted in-community marketplace for residents to buy and sell within the premise network.

08 Amenities booking

Book clubhouse, sports courts, and shared facilities with transparent slots and fewer conflicts.

09 Unlimited host app access

Every flat or office host can use the app — no per-user caps that slow adoption.

10 Do not disturb

Hosts can pause visitor interruptions when they need quiet time.

Features included (continued)

Remaining inclusions and commercial terms for the yearly plan.

11 Auto / manual approval

Choose automatic approval for trusted visitors, or keep every request under manual host control.

12 Exit due alerts

Security guards get timely exit-due alerts so overdue visitors are followed up at the gate.

13 Gate pass for daily workers

Issue gate passes for regular helpers and alert hosts when they arrive — safer, repeatable entry.

14 1 year of data access

Keep visitor and operational history available for a full year for audits and reviews.

15 Data security, no data selling

Premise data stays protected under a clear no data-selling policy — privacy is non-negotiable.

16 Free internal future updates

Product improvements rolled out internally stay included at no extra yearly cost.

17 1 month free demo

Try GuestRAR live for a month before you commit — evaluate with your own premise workflow.

18 Host demo & training

One demo and training session for hosts (hosts gather at one place) so everyone starts confidently.

19 Multiple premises, one app

Manage more than one society or complex from the same GuestRAR app without juggling logins.

20 House Help Line

Find house helpers in your area through House Help Line — a practical add-on for residents.

Rs. 12,000 / year / premise

18% GST applicable · One clear price · Everything listed is included

Our price is not negotiable

Please do not compare GuestRAR with incomplete or low-quality alternatives on cost alone. We are confident in the quality of our products and services — and we price for reliability, ongoing updates, data security, and real support. Transparent SaaS pricing means one clear number: **Rs. 12,000 per year** (18% GST applicable). No bargaining rounds.

Start with a free demo, or open the product page for inquiry and host training details.
